French and English seminary for Young Ladies, corner of E and 3th streets, Washington city.

The location of this seminary is one of the most desirable in the city, on account of its healthy and siry position. The house is large and commodious, with ample grounds and other facilities for amusement and recreation. The principal, so well and favorably known in this city, and in New York, from her long experience in teaching, hopes to give entire satisfaction to all who may confide their daughters to her care. She is a native of France, and familiar with its language and literature, and conversant with the best and easiest modes of imparting to her pupils a perfect knowledge of that language, so that they can not only read and write, but speak it fluently. She has secured able assistants for various departments, so that all branches of an English as well as French education will be thoroughly taught. Pupils who reside in the family have the peculiar advantages of hearing, and conversing at all times in the French language, and of perfecting themselves in the science of music, being under the surveillance of an experienced teacher. The course of instruction, besides the usual elementary branches, includes all the higher studies pursued in the most approved northern seminaries. The discipline is mild and affectionate, yet decided, and is maintained by appeals to the affections and conscience of the pupil; it is designed, by a proper development and cultivation of the better qualities of the heart, to bind more affectionately the pupil to her teacher, and by it to secure obedience. As sound physical, moral, and intellectual improvement and culture, are the great objects desired, it is the aim of the principal not so much to erowd the memory with words, as to draw forth and train the systematic and vigorous action, the observing, reflecting, and active powers of the mind. The

memory with words, as to draw forth and train terms systematic and vigorous action, the observing, reflecting, and active powers of the mind. The charges to those who reside in the family are, for board and tuition in all the branches of French and English, \$200 per annum for a single pupil; but when two or more are entered at the same time, a liberal deduction will be made. The additional liberal deduction will be made. The additional charges per quarter are for music, piano, and guitar, \$15; use of instrument, \$2.50; vocal music, \$5. To day scholars, the charges for tuition in the first department in French or English, are \$10; together, \$15; in the second department first class French or English, \$8; together, \$12; in the second class French or English \$7; together \$10 in the third department, first class, French or English \$6; together \$9; in the second class, French or English \$6; together \$9; in the second class, French or English \$5; together \$8; Latin \$4, other languages, drewing, painting, and dancing; ciass, French or English \$5; together \$8; Latin \$4, other languages, drewing, painting, and dancing; at professor's charges. Pupils can be entered at any time, and will be charged only from the date of their entiance. No deduction will be made to those who absent themselves after commencing a quarter, unless prevented from attending by sickness. Bills in all cases to be paid in advance. Every attention is paid to the religious as well as moral and intellectual instructions of the pupils, but an executive reconstruction. paid to the religious as well as moral and tntellectual instructions of the pupils, but no sectarian peculiarities are ever inculcated. Those residing in the family will attend such churches as their parents may select, under the care of a teacher. They will attend the Episcopal church with the Principal, when no other directions are given. Any other information, and the most satisfactory references will be given on application to the principal.

This water is inferior to none in the State, as it holds in solution sulphureted hydrogen, iodine, and magnesia, imparting tone to the system, and acting as a powerful alterative, as numerous visiters can testify, having been visited for the last fifty years, and, had it not been for its contracted accommodations, must have been among the first watering places in the Union. For the last five years, the improvements have been increased so as to accommodate between two and three hundred visiters.

The proprietor has endeavored to put this watering place on a footing with the most fashionableand comfortable places of the sort, in a plain style, and will use every exertion in his power to make his visiters comfortable.
